### Census 2020

Catholics in the Diocese of Fort Worth are urged by Bishop Michael Olson to complete the 2020 census if they have not had done so. The complete census count is used to determine how many congressional seats are divided between states, to fund special education, classroom technology and after school program, as well as to determine how much federal funding will be available in local communities to assist the least fortunate among us.

You can take the census by going to [www.my2020census.com](http://www.my2020census.com)
